# Valentines have their say on February's special

"How do I love thee? Let me count the ways."

With all due respect to Elizabeth Browning, counting the ways to say "Be my valentine", count-ing the ways of love these days on St. Valentine's Day is not as popu-lar as it was in days gone by, say like the Victorian era.

The younger generation these days tend to spread their love about all year long and in the dark dim past, swains tended to agree

As a group, high school stu-dents who do participate send left-handed compliments via contemporary cards, or do not

recognize the day at all.

One junior high school principal said, "No, they do not exchange valentines, nor are they particularly interested in them. Their interest seems to be in each other, instead."

WHO ENJOYS
VALENTINE'S DAY
The question arises, if senti-

ment is not spoken in the younger generation level, who does enjoy celebrating St. Valentine's Day? It is the "soda pop set," and the "middies to maxies gener-

ation." Youngsters in the lower grades make their valentines and exchange them with great artistic feeling. The older generation goes in for the real old fashioned hearts and flowers sentiment in cards, or they send Valentine shaped holders containing the popular red roses.

If the current sweetheart has a sweet tooth, then a big red heart shaped box of candy is sent. Some swains prefer to say it with red and white plush animals made especially for the occasion or to send jewelry in shades of red, white or gold. The stores usually have a variety of offerings that helps the sentiment along.
In the olddays, meaning really

old, back almost to the beginning of the observance, the day also had mixed emotion.

A DAY TO SLEEP Lighhearted loafers used Valentine's Day as a peaceful day to sleep. They took no chances that a common belief -- that the first person of the opposite sex you saw became your loved one for the year -- came true. No heartaches or aggravation for

Nor for the women, who like one 18th century lady, "lay in bed and shut my eyes all morning until he came to our house. I would not have seen another man for all the world." It would appear that these ladies made sure that Cupid didn't interfere with their year's selection.

That chance, however, became more and more risky each year

# Committee baffled by expenses

It was back to the "budget math" Tuesday, Feb. 3, for the Citizens Committee studying the financial plight of the Upland City School District.

"The more we study, the more confused I get," one member said. But the group which is headed by Hal Balin, keeps on coming back to get answers. Ernest Kirkland, assistant su-Ernest Kirkland, assistant superintendent, business, for the district, is the man who has to

explain the sometimes complicated math to the citizens. He told the group that the tax rate is set by the County Board of Supervisors, after they have studied the budget, he said assessed valuation figures quite heavily in the budget making process. The district has a \$1.85

maximum tax which was voted upon by the people in 1961. He then attempted to explain the budget's expenditures, but was asked several times what the "other expenses" were, which were included in every

Serving on the committee are, Ralph Foley, William Milton, Dan Noonan, Mrs. Frank Grant, Mrs. Bruce Claflin, Asa Bert, Ida Moore, Mrs. Stanley Hoffman, Mrs. Walter Riedel, Mrs. John Clinton, Fred Kramer, Reiny Schneider, Mrs. Charles Bar-tolotta, and Herschel Glenn. The group was selected by contacting service clubs, PTA's and other groups in the city. The public is invited to attend.

and finally women decided to sub-stitute a safer custom to celebrate the day. In the late 1700s. sweethearts began penning and decorating cards, some so ele-gant and beautiful, they are vir-tually museum pieces today. And since neither mail ser-

vice nor envelopes existed, "cap-tured" colonists delivered their tokens of love -- cards, candy, perfume -- in person. The more well-to-do sent their

cards by coach, though they double wrapped and sealed them with wax, so only their beloved could read the message. Then with the invention of lith-

ographs and woodcuts -- a boon to the inartistic competitors, but a burden to the mailman -- nearly everyone began sending valen-

TAILORED CARDS

Cards were even tailored to men in specific professions. The undertaker, for instance, could send a card which said, "Let Chloe smile upon her lover, Who will ne'er forsake her; Each day new charms she will discover, In her faithful undertaker.

Or the fruit grower could write his beloved that "Sweeter than an orange grove, is the charming maid I love, No grapes more luscious than your lips."

Lace-edged sentimental valen-tines also became popular. Today, in addition to cards, flowers, candy and perfume have become common Valentine's Day gifts. According to department store surveys, items boxed in hearts, or shaped like Cupid also are popular.

Among the most common valentine candies are the tiny sugar hearts with inscriptions like "Be My Valentine" on them, and among the most popular colognes for women are those which combine the provocative with the ro-

> ST. VALENTINES NOT ROMANTIC

St. Valentine, however, who lent his name to the holiday, actually had little to do with it. Two Saint Valentines -- one a Roman priest and the other a bishop martyred in Rome about 270 -- had birthdays February 14, and when the Christians tried to purify the Roman fertility festival Lupercalia, which also came in February, they changed the holiday's name to St. Valentine's

Also from the Lupercalian celebrations came the custom of dropping valentines into a box for distribution. At one point in the Lupercalian festival, Romans drew women's names from a box, though authorities are not sure

though authorities are not sure why.

Christians, however, copied the custom, though they substituted the names of saints. Today in classrooms throughout the country, children continue the tradition. Remember "Guess Who" or "Secret Admirer"?

But you probably don't remember a 19th century game called "Progressive Proposals", where young girls at Valentine's Day parties proposed to each boy in the room.

in the room.

The boys rewarded the offers with either mittens or hands, the latter being an acceptance, the former a rejection. When the game was over the girl with the most mittens got -- warm hands.

# A tribute to scouting

One of the pioneers of American journalism, a fellow who edited a leading weekly from behind a roll-top desk and a large spittoon, once said that editorial writing was a matter of "pointing with pride" and "viewing with alarm." The Daily Bugle has advanced the state of the art of editorializing considerably since those early days; however, today we revert to the original formula of our long-forgotten friend. With a great deal of satisfaction we would like to point with pride to the Boy Scouts of America who are celebrating their 60th birthday, February 7-13, during the annual observance of Boy Scout Week.

For the past 60 years, the Boy Scouts have prepared the boys for their future role as citizens of this great nation. During this 60th Anniversary Boy Scout Week, you'll be hearing a lot about the famous astronauts, generals, scientists, businessmen, and other nationally known figures who were Scouts. These are men such as Neil Armstrong, Pete Conrad, Jim Lovell, Senator Mark Hatfield, Hubert Humphrey, Thomas J. Watson, Jr., Dr. Ralph Bunch.

Scouting has a great track record in the past and an even greater promise for the future. Its new long-range play, BOYPOWER '76, is into its second year of outreach to boys of all races, colors, creeds, and economic origin. Its impact on the Nation will not be apparent for years; however, here in Upland we have seen the effects in our leadership and strong businessmen.

Happy birthday, Boy Scouts, and best wishes for continued success in the years to come!

## South Africa misunderstood

# Our Man In Washington

By BILL KENNEDY

WASHINGTON - Readers probably will see a sports subject discussed in this column only when the subject goes beyond the sports realm and overlaps with politics.

good example is the case of Negro tennis player Arthur Ashe who claims he wants to go to South Africa, not for any political purpose, but solely to play in the Open Tennis Tournament there

Well, the South African government apparently doesn't believe Ashe and has declined to issue him a visa to enter the country. Now why would the government do this?

Sports Columnists and editorial writers around the country were quick to accuse the South African government of discrimination because of the fact that Ashe is black. The cry has been taken up in the halls of Congress where Rep. Charles Diggs of Michigan urged that South African tennis player Gary Player be barred from this country.

ALL THIS is not surprising, for the liberal press has for years been using South Africa as a whipping boy. This results partially because South Africa follows a policy of apartheid, but probably mostly from the fact that the country is grossly misunderstood.

The government of South Africa contends that Ashe's major purpose for wanting to visit the country is not to play tennis, but political. Several choice quotes attributed to Ashe and duly published in the

press are offered as examples:

"South Africa, I really burn on that issue, I just want to take an H-bomb and drop it right on Johannesburg... I told them to trust me for another year to get improvement in South Africa and elsewhere in the apartheid situation... The objective is to get me into the South African Open next March."

The South African government asked if these could be the utterances of someone who merely wants to play tennis and decided in the negative, thus refusing Ashe a visa.

THIS COLUMN is not intended as an apology for the imperfections of South Africa of which all countries have their share. It is, however, intended to show some of the other side of the coin at a time when only these imperfections have been publicized to any length.

Apartheid as practiced in South Africa stands for equal but separate and parallel development of the white and non-white society, and the country has been painted by many as a "hell country" because of

An abusive generalization has contributed to build a distorted view of the country - an unjust prejudice resulting from the smokescreen thrown up by newsmen and editorial writers who do not understand the problems of South Africa.

The separate development system is essentially the same as that advocated by a growing number of black separatists in the United States. In many U.S. colleges and universities there is increasing demand for separate black dormitories, cafeterias, libraries and courses of studies. And there are a growing number of blacks disillusioned with integration, looking more and more to the idea of entirely separate schools.

SOUTH AFRICA is the most modern nation on that continent where the Bantu (blacks) earn higher salaries than their counterparts in any other country of Africa. They have the highest standard of living south of the Sahara, more education and further advancement from the bush than their brothers elsewhere.

And the Bantu of South Africa numbering more than 13 million own more automobiles than the 200 million people of the Soviet Union. In 1967, there were 94,500 beds available for non-whites in hospitals throughout South Africa - 7.41 beds for every 1,000 persons, compared with the accepted world standard of five beds for every 1,000 persons.

The country's largest hospital, the largest in Africa, caters exclusively to non-whites. Some 78,000 Bantu patients are treated there each year, and nearly 20,000 operations are done each month. The average non-white pays as little as 25 cents for out-patient visits.

What does all this have to do with tennis? Only this: When sports writers venture into the field of politics, the same standards should give the political columnist the right to reciprocate.

# Gettysburg Address

Fourscore and seven years ago, our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived, and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a large sense we cannot dedicate - we cannot consecrate - we cannot hollow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to that cause for which they here gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people and for the people, shall not perish from the earth.

#### A Little Bit

# OF THIS AND THAT

By Bob Evans

You are familiar, no doubt, with proposals to fool around with the days on which certain established holidays or birthdays would be celebrated.

The idea is to have such holidays fall next to a weekend to allow more three-day holidays.

We now propose to add still another day to the list for observing at a more convenient time.

The day in question is Friday the 13th.

Superstition says this is a very unlucky day. And this "reason" alone dictates that it would be better if it didn't come so late in the

We suspect that we're not the only ones to feel somewhat weary as the end of the week draws nigh. So wouldn't it be better if somehow Friday the 13th fell on a Monday or even a Tuesday? Bad luck would be easier to take if we were less tired and more alert.

There usually are miscellaneous tasks and other chores put off till late in the week. Because of this, one often has trouble finding time to squeeze Friday the 13th into the schedule.

And when you think about it, Tuesday the 13th does have a rather

On the other hand, if Friday the 13th is to remain on Friday, at least the number ought to be revised.

Inflation alone requires that 13 be increased. How much of an increase, of course, depends on what you want to use for a base

There was a time when the period 1948-49-somewhere in there-was used as an index of 1.00 by economists. A common reference point now used is 1958-59, which means that any economic comparison made over the last nine or 10 years doesn't look so bad as if the comparison were made over a 22-year period.

So, if the 13th was an honest 13th--not a 12.73th or a 13.39th--in, say, 1959, its face value today should be somewhere around the 19th or so.

You might want to quibble over the exact value of the 13th, but the point seems clear: we're celebrating it too early, whether we keep observing Friday the 13th on Friday or on some other day.

# Color brochure sparks Salvation Army drive

"People Are Our Business" is the title of a newly published eight page plus cover brochure by the Salvation Army just off the press in color setting forth the aims, purpose and future plans of the Ontario Corps as it begins its Capital Fund drive for a critically needed new home to meet the growing demands for its services in West End communities.

Captain Chet Danielson, Commanding Officer for the Ontario area, is on the cover with a special message by Don E. Wight, campaign chairman, appearing on page one giving a brief history of The Salvation Army in the West End starting in 1895.

The message also states that "for the past 40 years it (The Army) has centered its peopleserving activities in the present building at 216 S. Euclid..and because of expanding needs and increased demands..the present facilities are no longer adequate. The Salvation Army now needs

your help and the help of all in the West End to achieve a Capital Campaign goal of \$329,

000 to provide a new building.

Two pages are devoted to a wide selection of pictures on the Corps activities with the centerof-the-book showing the present inadequate building and an archi-tects drawing of the proposed new building to be located adjacent to De Anza Park on So. Euclid avenue.

Page seven carries information on how to establish Living Tributes and Memorials with page eight and the inside cover devoted to the names of the local Corps, Western Territory, Southern California Division officials, the Ontario Advisory Board, a group picture of some of the campaign leaders with Chairman Wight, and a listing of campaign chairman and volunteer workers.

Those interested may secure a copy of this Brochure at cam-paign headquarters, 209 S. Fern. For information call 983-7120 or 983-5203.

# DAR luncheon program celebrates anniversary

San Antonio Chapter, Daugh-ters of the American Revolution, held a luncheon meeting Monday, Jan. 26, at the Upland Inn. The Regent, Mrs. Joseph Visnak presided.

At this meeting the chapter celebrated its sixtleth birth day. Mrs. Willis J. Hutchinson, a fifty year member, had the pleasure of cutting the big birthday cake. The chapter was organized Jan. 30, 1910 and was number 21 in the state of California. At the present time there are 149 chapters in the state with a membership of eight thousand six hundred.

The program for the day was given by Captain Chet Danielson, Commanding Officer of Ontario Corps of the Salvation Army. Captain Danielson described the work of the Army in the whole West End community, ex-

plaining that it covers not only

welfare services of many kinds for adults, youths and children. The work is among the needy and the disadvantaged, and it has been going on here for 75 years. It was explained that there is a great need for a new building.

emergency disaster relief, but

The present facilities are no longer adequate for the expanded needs of so large a community. Plans are being made for a new building adjacent to De Anza Park in Ontario. A business meeting was con-

ducted after the program. Plans were made for the coming State Conference to be held in Los Angeles at the Statler-Hilton Hotel, March 10-13.

Guests at the meeting were Mrs. Chester Danielson, Mrs. Joe Hudson Glasson, Mrs. Charles Barraud, Mrs. Kenneth Carman and Mrs. Sally Ryrie.

# 'L'Esprit du Printemps'--fashion show theme

"L'Esprit du Printemps", or in a more liberal translation -"Spring Fever", is the theme which has been chosen for the fashion preview to be given by the Assistance League of Upland on Tuesday, March 10.

Highlighting the annual fashion show, to be held at the Pomona National Golf Club at 11:30 a.m., will be the creations of Mr. Blackwell, designer of women's clothes. Glo Davis will present Mr. Blackwell's spring line.

A new innovation for the Assistance League will be a champagne brunch which will accompany the fashion show.

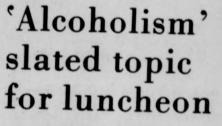

Co-chairmen for the event, Mrs. Joyce Merrell and Mrs. Milo Crawford have planned a musical backdrop for the festivities - the Aimee Trio, Special arrangements are being handled by Mrs. Homer Briggs.

ALTA LOMA -- A Po-mona Unified School District teacher has been hired as coordinator of the new Chaffey College Actuation Center.

Appointed by the board of trustees to head the center was Mrs. Her-minia U. Welsh, state membership chairman of the Association of Mexican-American Educators of California,

The Actuation Center is a self-help agency geared to the needs of students of all colors.

With the exception of the professional coordinator, the center is student staffed. It is linked to an advisory committee of representatives from the college and the com-

munity.

In the past semester in Pomona Unified, Mrs. Welsh was engaged in a pilot project keyed to leadership through speech and drame. and drama.

In the nine years previous to her Pomona experience, Mrs. Welsh taught the seventh, eighth and ninth grade levels in Fontana Unified School District, Her subjects were English, Spanliterature and physical education.

Pilot projects that she helped develop in Fontana were foreign language and gifted pupil programs in the elementary school

Mrs. Welsh has served on such summer assignments as director and sponsor of the Dependency Prevention Commission, San Bernardino, and director of the National Youth Corps, Watts.

She is a section chairman of the Association of University Women and also belongs to the Modern Language Association, the

National Education Association, the California Teachers Association and Mexican - American Political Association. Among her honors are

Foreign Language Association award, Pacific Telephone Field Service award and National Language grant. Mrs. Welsh has the ba-

chelor of science degree from the University of Northern Arizona,

ALTA LOMA - One of the greater shows on earth, "The Northern Lights," will be simulated via special projectors at Chaffey College Feb. 17 and 24. The first show was held this week.

Reproduced in the Daniel B. Milliken Planetarium will be the sequence of events that appears to light a torch to the polar night when the heavens appear to burst into multi-colored flames. The Tuesday shows will start

at 7:15 p.m. Planetarium showman Robert M. Lober reports that the flashing luminosity of this celestial pageant results from sun particles trapped by the earth's magnetic field. The blazing denouement is scientifically termed

the aurora borealis. Lober teaches astronomy at Chaffey College. Tuesday evening presentations programmed for the rest of the se-mester are "The Big Bang" (March), "Big Bang" (March), "Big Eyes, Big Ears" (April) and "Comets, Meteors, and Immortality" (May).

The presentations are accompanied by commentary and appropriate mood music. Seating is on a first-

come basis. Attendance capacity is 74 persons. There is no admission charge.

RARE OPPORTUNITY -- Students of early California days will have a rare opportunity to study an unusual document which President Lincoln signed only three weeks before his assassination. The document, a patent returning the San Luis Rey Mission, near Oceanside, to the Franciscan Friars after its confiscation and sale by the Mexican governor, will be taken from the Mission archive vaults on Lincoln's Birthday, February 12, and be put on public display from 9:30 a.m. to 4:30 p.m., each day through Sunday, Feb. 15, at San Luis Rey Mission, located on Highway 76, three miles inland from Oceanside.

The long-term solution is removing the old leaded paint and, finally, the buildings themselves. But too little effort is made to tear them down.

The short-term solution has been tried by some cities that have set up screening programs to detect kids who have high blood levels of lead. And Dr. Joseph R. Davis at Chicago's Loyola University has developed a screening test, a simplified urinary test.

# looked at your investments lately? compare these facts.

There's more to consider than rate alone!

Savings insured to \$20,000.00 by an Act of Congress.

Upland Savings pays the maximum interest on insured savings. No other insured financial institution in America can offer you higher interest or more insurance, because all insured financial institutions' interest and insurance are regulated by governmental regulations.

Upland Savings is a part of America's insured savings system whose total assets exceed \$150,000,000,000.00 (150 billion dollars) and where, throughout America, over 44,000,000 (44 million) savers save.

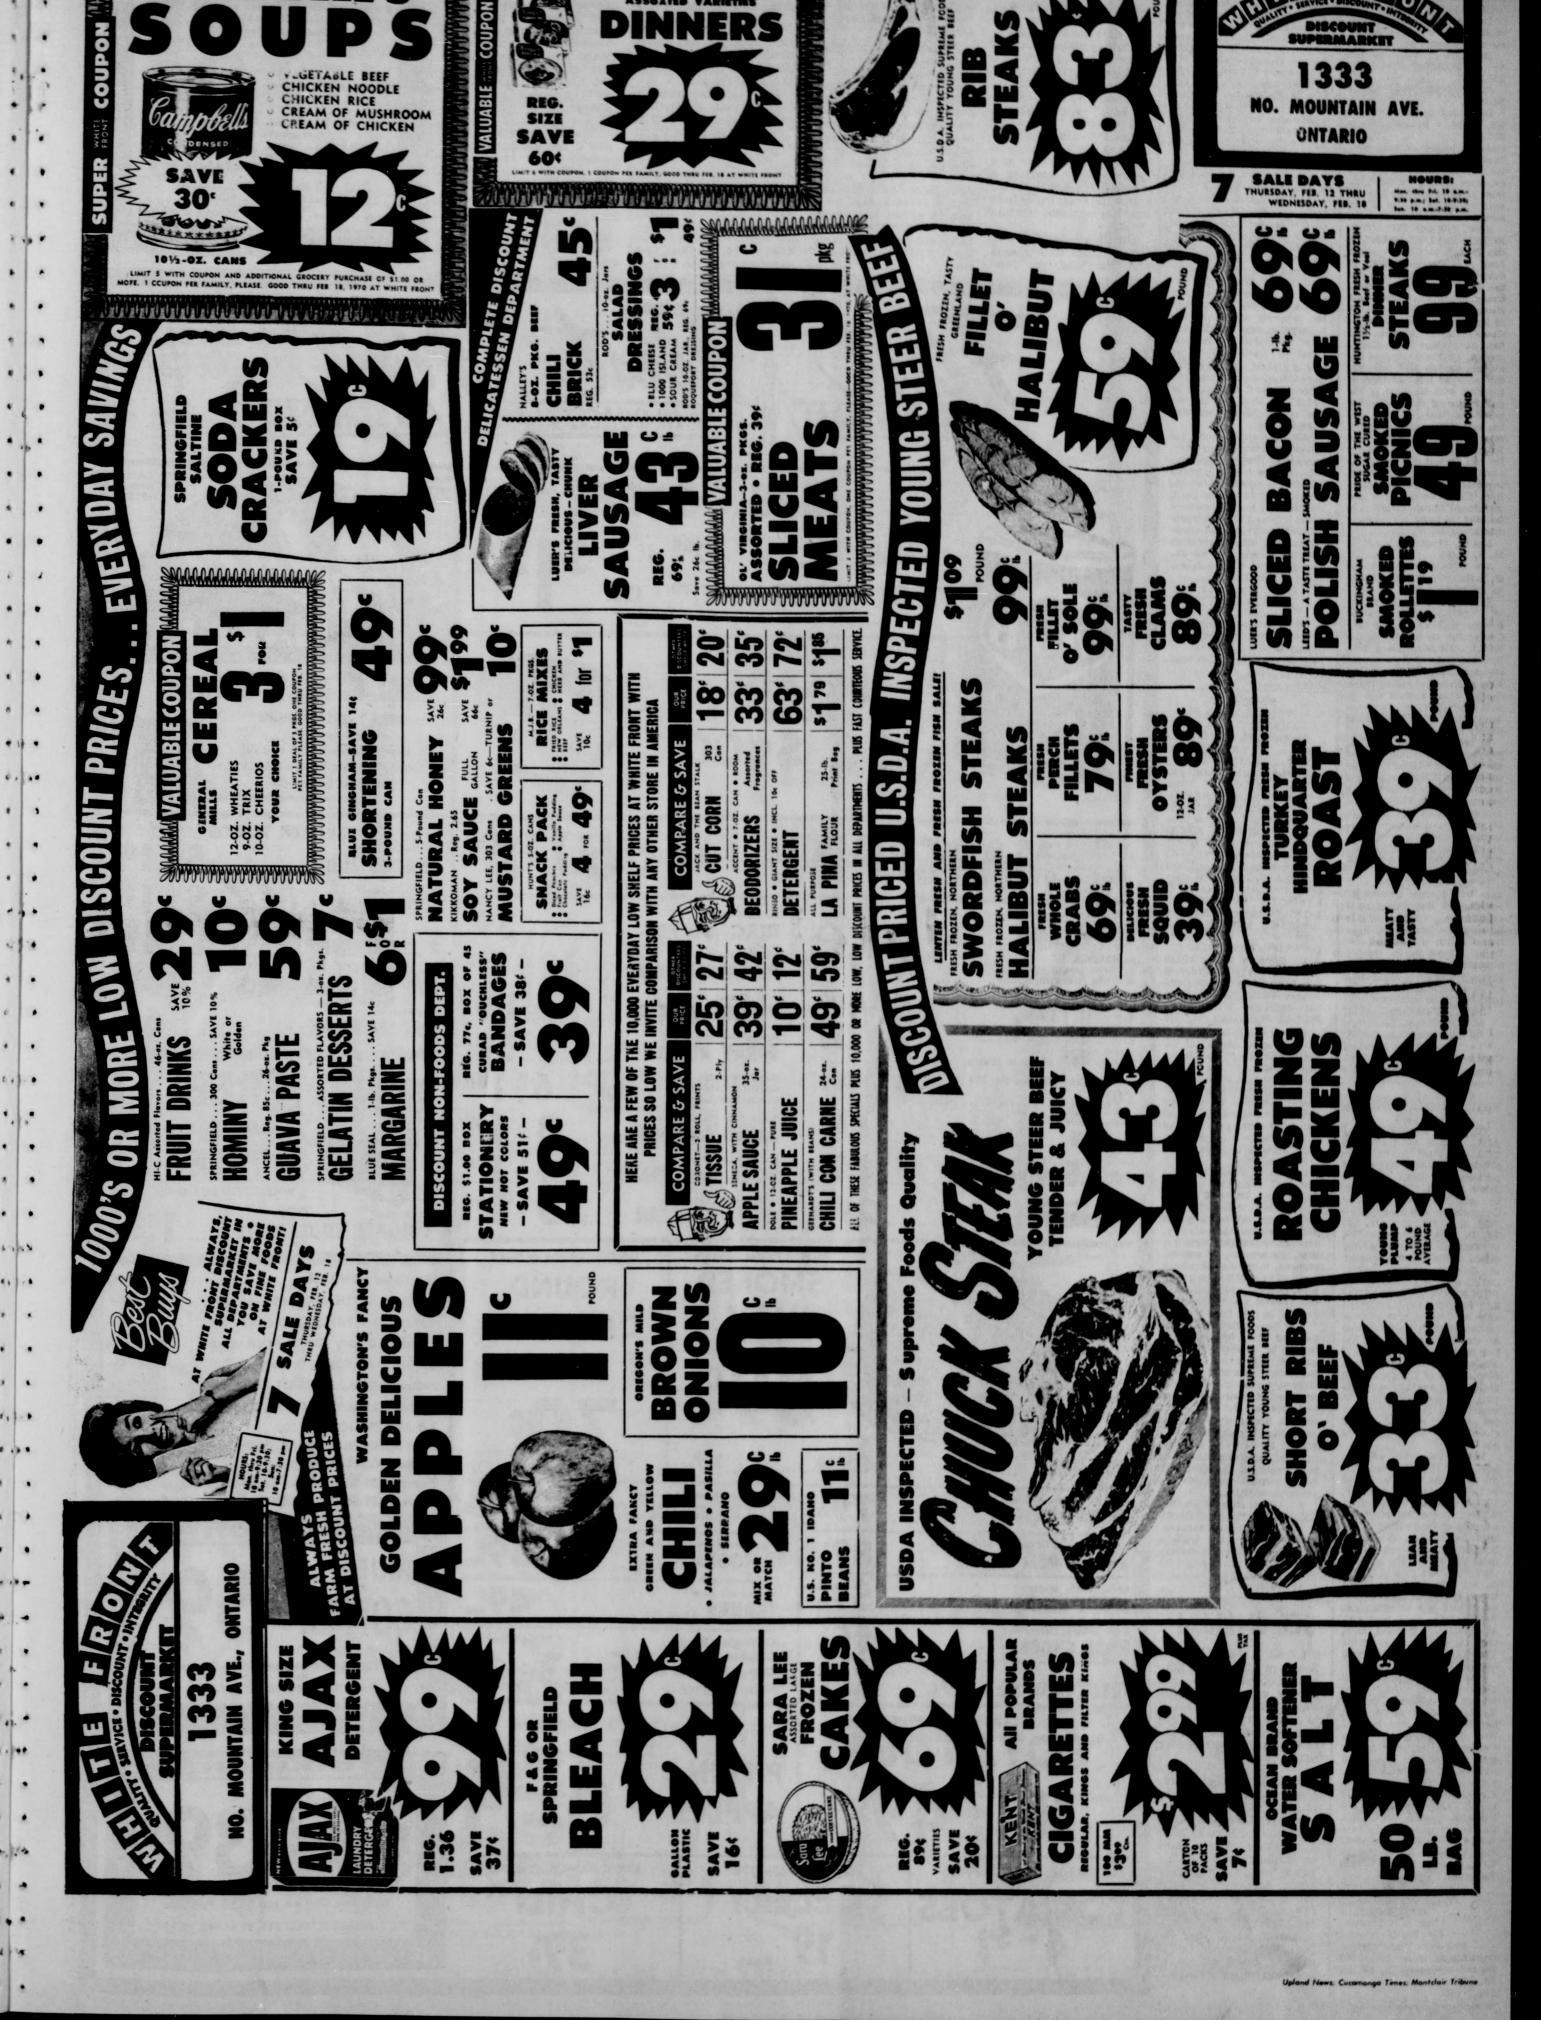

As a savings counselor, we suggest you look at more than the stated rate of yield of investments. If you had needed to "cash-in" your investment before maturity this past year, you would sustain substantial losses. In 1969 only Upland Savings would have returned your investment plus high earnings.

# Sense of responsibility cuts crime

A sense of responsi-bility felt by the child to all the adults in his limited community, a return sense of responsibility by all the adults, plus the lack of leisure time-these are the principal reasons there is so little crime among primitive peoples.

That was the opinion expressed by Dr. John H. Furbay, anthropologist and director of educational and cultural affairs for a major air line, who was keynote speaker at a recent dinner starting a month-long study of basic education teaching at federal correctional institutions.

Drawing participants from Alaska to Alabama and Maryland, the con-

Regular Grind

ference is being held at the Educational Center conducted by California State Polytechnic Col lege (Pomona) at its Voorhis Campus near San Dimas.

Purpose of the program is to develop and produce an "Educational Model" in the form of a reference manual to help federal correctional institutions do a better job of meeting basic educational needs of disadvantaged adults. In charge of the Cal Poly Center's seminar is Dr. Antoinette Ryan, specialist in educational re search at the University of Hawaii. The project is funded by a grant from the U.S. Office of Educa-

tion.

seem to go hand in hand, said Furbay, who, just returned from his 31st trip around the world.

"As an educator, an anthropologist and a very concerned adult, I some-times wonder if leisure is a good thing." Many of the youth in

correctional institutions are without any kind of good work record, he said. "When I think of 'cor-

rections', I think of the aviation term---change the direction in which you are going. 'Correction is not 'punishment'. Just as when you correct the course of a plane, you must correct the attitude

of a person. Correction of a child, for instance, merely means modifying the direction of his life. Actually, the only one who can change a person's direction is the person, himself. The job is to make him want to change his direction --- and the job has to be started by selling the idea of change.

Nothing will sell it-self, the anthropologist noted. Not even reli-gion. That's why we ring the church bell --- to remind, remind, remind,

"You have to sell the kids on changing the di-rection of their lives," he said.

# **Violence** is costing you thousands

By James E. Whetmore State Senator, 35th Dist.

The state in 1968 spent a significant sum of the taxpayers money -- \$718, 655 for the Highway Patrol, and \$589,621 for the National Guard -- to help quell violence at the campuses of the University of California at Berkeley and San Francisco State College, alone.

This huge expenditure does not include the millions of dollars in damages channeled to the University and state college campuses to pay for vandalism, including fire damage, campus police overtime, and other miscellaneous expenses.

That's a lot of money, notes our Legislative Analyst in his recent report to us, and he has recommended that we not reimburse California cities for the monies they spent putting down those campus disorders.

As yet, the legislature has not given cities a cent as reimbursement costs of the nearly \$600, 000 the colleges claim was spent on the campus disorders, although a section of the Education Code adopted last year authorized payment to cities of half the cost of police work during campus disorders. In fact, the section even would allow reimbursement for normal working time of peace officers, a prac-tice not followed in any other part of California

Our Analyst recommended in his report to the legislature entitled. Considerations Involved in State Subventions for Costs of Local Law Enforcement in Campus Disorders" that we should repeal the section of the code which entitles the cities to reim-

bursement. He feels, and rightfully so, that the cities such as Berkeley, San Fran-cisco, and Santa Cruzre-"substantial economic and cultural bene-fits" and these far outweigh the inconveniences of quieting a campus riot.

He pointed out that the state will spend \$600 million to support the uni-versity and state colleges this year. Berkeley alone will spend about \$318 million, plus the amounts of money spent by the faculty, students, campus auxiliary enterprises, and visitors attracted to the community by the university.

And already it is estimated that the total spending by students should rise to \$24 million in Berkeley by 1975. On the smaller, newer Santa Cruz campus, for example, our Analyst found that students had spent \$900,000 in 1965-66 for non-housing items. By 1975, he predicts this would increase by \$13.5 million a year.

At the same time, the Santa Cruz faculty and staff spent \$2.5 million but the projected increase to 1975 is an additional \$5.4 million to \$7.9 mil-

lion. This is one way of saying, of course, that the economic value to the city having a university or college far outweighs that cost for campus disorders - and why should the state pick up these charges?

Our tolerant Analyst did say, however, that if the code section wasn't repealed, at least it should be amended to take out the provision for paying police salaries dur-

ing normal working days. You can be sure this whole problem will have full hearings in the legislature this session,

# Reducing Critics Talk About Pat Walker

The Pat Walker treatment is so private and pleasant. Every-one at the Salon is friendly and interested. I feel I cannot lose anything but more unwanted inches.

I am so grateful to Pat Walker for bringing to Australia a reducing program that really works. I have already lost 11 pounds and 221/2 inches overall.

The way these treatments have helped me reduce is proof positive that any woman who uses Pat Walker's marvelous program will be pleasantly surprised by the wonder-

Miss Dorothy Rooney, Cremorne, Australia

You can look like a mattress tied in the middle for just so long or look at your bulges in a three-way mirror and pretend you don't see what you see.

I went to Pat Walker's and reduced from a size 18 to a size 10. Believe me it's most gratifying.

-Mrs. Lillian Cooney, Lakewood

For the last seventeen years or so I've had a problem taking off inches and shedding weight.

As a result nothing would be permanent. Dieting splurges result in only temporary weight loss, so I knew I had to do something which would be satisfying and

The Pat Walker Program of reducing is so relaxing and sensible. Reducing is made I fully recommend this program for any

woman that would like to be down to her perfect dress size.

-Mrs. Marilyn Hamman, Pasadena Salon

With the Pat Walker program I have reduced to 123 pounds and to a size 10 dress, and um still losing inches. The treatments are terrific for firming the tissue while taking off inches,

> can't praise Pat Walker enough, as I ve her credit for my slender figure and I have a whole new outlook on life.

When I was obese, men wouldn't look at me. Now I have no problems. I have never felt better and now enjoy a good social

-Mrs. Helen Roberts, Los Angeles

I had a beautiful figure before I had my two children. Then my weight went up to over 170 pounds. I tried everything to reduce but nothing worked.

I will always be grateful that I saw your

ad and decided to give it a try.

Now I'm down to 128 pounds and wear size 12. I feel like a million and my husband is so very proud of my appearance.

I sincerely recommend your program to anyone who wants to lose weight and feel

-Mrs. Janette Gleason, Long Beach

Three years ago when we moved to Hawaii the pounds were beginning but I paid no attention to the signs. Soon I

noticed what was occurring. I was no longer the "Slim Me" of my working days. My husband said, "Go to Pat Walker's." It is with great pleasure that I write this

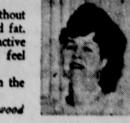

to you. I can look at myself in the mirror and say thank you for giving me back my slim figure.

-Mrs. Lea R. Raybin, Honolulu

Now, I truly enjoy going in a store to buy a size 12 dress. I am not embarrassed any more when a sales clerk asks me what size I wear, for I don't have to say

I can look in the mirror now without having to look at rolls of ugly flab and fat. Now, I see only firmness: I am more active in church and school work because I feel

Best of ail, my husband says I am the most glamorous grandmother in town.
-Mrs. Bernice Asbury, Lakewood

Last year I went to a New Year's party wearing a size 50 dress. I looked for all kinds of excuses not to go. It's awful to dread what most everyone looks forward

to. But when you're so overweight you feel so conspicuous and have that "left-out feel-In fact my weight and inch loses are proof that the Pat Walker program works. I

am down to a size 14 and that's a long way from the size 50 that I was.

-Barbara Kiefer, Torrance

I have always been dubious about answering advertisements regarding reducing. I am so glad my better judgment told me

to call Pat Walker's. I have reduced my 5 foot, 1 inch figure from a size 14 to a size 10 and am still going down. With the Pat Walker program one does not lose weight in just one place but it comes off where you need to

I am happy to say I am now able to wear the clothes that were too small before and I feel like walking straight and tall.

-Ellen W. Humes, Sherman Oaks

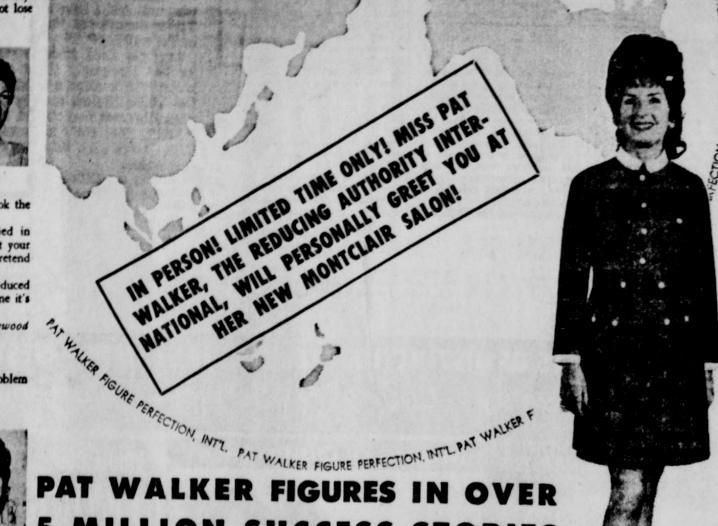

I was a victim of the overweight problem for many years. I knew about and tried other methods to reduce. I was a 174 pound size 20.

I was miserable being so overweight and resembled a stuffed sausage. I never looked stylish or attractive.

Whatever I liked came in sizes much too

What a thrill it is to be both slim and trim. I am now a size 12. No more suits and dresses in those unattractive large sizes

spent doing it.

VALKER FIGURES IN OVER ILLION SUCCESS STORIES

from an article by a California Fashion Editor

It was half way around the world . . . a mere dot o. an island in the South Pacific. The plane circled, roared down the runway, then thundered to a stop.

"We have landed in Pago" Pago," the stewardess announced. "We will be here 30 minutes for refueling."

Throngs of native wellvishers swarmed around the plane . . . AND around a muu muu-clad wahine, who seemingly, immobilized by her own bulk, withstood their thrust like an immovable fortress. THEN she spotted the familiar figure of a strikingly attractive brunette passenger.

"It's Pat Walker!" exclaimed the islander, bulldozing her 300 pounds toward the internationally known figure au-

"Have you come to open a salon here . . . ?" she asked excitedly, explaining in a mixture of native dialect and broken English, "We read every about you in the papers" - newspapers discarded by the airplanes—and about all those ladies you make so beautiful and thin.

"See," she said slapping her bulging torso for emphasis. 'See, we need you here!"

It's that need-whether the locale be Park Avenue or Pago Pago—that has made Pat Walker undisputed heroine of every woman's Battle of Today, the story of her suc-

cess is measured on an international scale, figuring in headlines from the top of the world to Down Under.

One U.S. columnist recently wrote: "She's out to reshape the world with her revolutionary computerized equipment"...a metropolitan newspaper in Australia identifies her editorially as "the world's foremost figure authority"... and, because she jets halfway around the world at least twice a month, flight personnel of Pan American Airlines calls her "the flying Irishman," One of the latest stars in her international crown: she served as an official judge in Long Beach's International Beauty Contest .

A celebrated nightclub performer in Hawaii refers to her as "the skinny maker" . . . and a British opera singer,

who flew from London to take treatments at the Pat Walker salon in Sydney, Australia, is still singing her praises. The singer had been told that before she could audition for an important role on the London stage, she would have to lose weight a great deal of weight. She did - and won the role!

#### OVER 5 MILLION SUCCESS STORIES

The London opera singer is just one in a million success stories in Pat Walker's career. Correction: millions of success

Already the 5-foot-3, 101pound Irish human dynamo has pared down and redistributed the dimensions of more than five million women in her fast-growing chain of reducing salons.

Coming from all walks of life, her patrons have ranged in age from 7 to 94. Some have lost more than 100 pounds. Among them have been celebrities and sales clerks, models and machine operators, professional women and waitresses, airline stewardesses, housewives, teenagers and grandmothers.

Her files bulge with the names of satisfied customers and with success stories of marriage that seemed destined for the rocks, but were saved . . . of stars who made comebacks with new box office figures . . . of senior citizens who rediscovered their zest for living . . . of career women and housewives who regained their pride and selfconfidence, their marita! hap-

piness and/or ich status. Pat Walker's fleet of salon: currently stretches half way around the world (Australia, Hawaii, Southern California) and all are running at full

Coming soon: equally swank salons in Mexico City and the Brentwood - Santa Monica area. Also on the drawing boards are salons for New York City, London, Paris, New Zealand, Washington, D.C., Hong Kong and

#### NEW COMPUTERIZED EQUIPMENT

All Salons are equipped with the firm's new all-computerized units which take all the guesswork out of reducing and figure correction. The

precison equipment was developed and researched by Miss Walker and her partner, Harrison W. Hertzberg, a prominent Los Angeles attorney with a degree also in engineering, Mr. Hertzberg directs and oversees the manufacturing and maintenance end of the business, leaving Miss Walker free to give personalized attention to her salons and patrons.

"There is no other equipment and reducing program like it anywhere in the world, she notes with authority. Ours is the only computerized program and reducing equipment in existence that has been scientifically researched and developed.

Back in the days when Pat Walker opened her first salon, a single treatment required 50 minutes - and patrons were shuffled from one piece of equipment to another, five in all! The new computerized program-each treatment now requiring only 30 relaxed minutes without disrobing is accomplished more effectively on just ONE piece of

equipment. Pampered by luxurious surroundings, individual privacy and courteous attendants, lulled into complete relaxation by piped-in music, the patron can-and usually does -drift off into detached contentment while the unit goes to work on fatty tissue, muscle toning, circulation, posture correction AND those forgotten areas that haven't flexed a muscle for monthsperhaps years.

#### INDIVIDUAL PROGRAMMING

What makes the BIG difference is that each woman's figure correction is programmed individually ("no two women are alike") to correct HER specific figure faults: dowager hump, large hips and thighs, protruding abdomen, thickening shoulders, flabby tissues . . . what-

What are the most common figure faults? Hips and thighs. The ideal female dimensions: "There are none," says Miss Walker. "Ideal measurements are purely personal depending on bone structure, height and weight distribution. A woman can weigh 125 pounds and have a perfect figure-one that is right for her. On the other hand, 110 pounds and 36-24-34 dimensions can add up to a bad figure if they're not ideal for the woman's wearing them." (How unlucky can a gal be!)

Pat Walker

Reducing

Authority

International

It grieves her that many here-today, gone-tomorrow reducing salons "guarantee" to trim a woman - whom they haven't even seen!-from size 18 or 20 to size 10 overnight. They make the promise, completely disregarding her bone structure.

"It's utterly unrealistic," the world-renowned figure expert contends. "If a woman has a size 10, 12 or size 14 bone structure, that is her perfect size. After all, beauty contests are judged on perfect proportions - not on size. It's as simple as that. We reduce women to their bone structure and perfect dress size."

#### THE WEIGHT PROBLEM

Obesity, she concludes, is one of modern woman's weightiest problems - often causing loss of home, prestige, employment and social status.

The problem most often mentioned in her barrage of

"MARITAL . . . and spell that with capital letters," she says, noting that the incidence of obesity is greater among housewives than any other group . . . "often because they're so busy raising the femily, they forget to look in the mirror." Her firm belief "if a woman would take as much pride in how she looks at home as at a cocktail party, the divorce courts wouldn't be so crowded."

MORE ABOUT DRESS: "I firmly disapprove of the girdled look-both from the ppearance it creates (men hate it!) and because of the tendency to cause flabbiness. Women should not depend on foundations to hold them in. That's what muscles are sup-

posed to do." "Buying clothes to camouflage a bad figure is a waste of time and money. The most expensive costume is overshadowed by a bulging, bad figure. It's more economical

I had a successful career in Real Estate until surgery

After surgery and months of convalescence with little exercise, my weight was out of control. I tried many reducing methods and all were very unsatisfactory.

Within two weeks improvement was certain with the Pat Walker Reducing Program. Results were steady and my general health and circulation improved.

I reduced from a 169-pound size 181/5 to a 121-pound size 10. This business world is much easier to face in a trim dress size.

-Mrs. Lynn Hays, Orange County

Being overweight was no fun and I was constantly feeling tense, irritable and ill at ease because no matter what I wore the clothes just didn't fit properly.

> I have reduced from a size 16 to a size 10 and am still going down.

The way these treatments have helped me reduce is proof positive that any woman who uses Pat Walker's marvelous program will be pleasantly surprised by the wonderful results.

-Mrs. Francis 1. Stack, Honolulu

For years I fought the "Battle of the Bulge," crash diets, home exercises and other methods all producing discouraging

One day in desperation I answered a Pat Walker ad with not too confident hope. Well, I found out! It's unbelievable! I reduced from a size 221/2 to a size 14 and am still going down. I also reduced fifteen years in appearance.

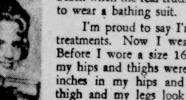

My health is better and life is once again a pleasure to live, thanks to Pat

-Mrs. Matilda Kettle, San Francisco

For many years, it seems like forever, I was hiding my figure under a boxy suit or coat, huge handbags and full skirts. My problems were all from the waist down. I had given up

capris and told everyone I didn't like the beach when the real truth was I was ashamed to wear a bathing suit. I'm proud to say I'm finished with my

treatments. Now I wear a size 10 dress. Before I wore a size 16. I had to because my hips and thighs were so bulgy. I lost 7 inches in my hips and 5 inches on each thigh and my legs look decent again. I'm proud to say I went to Pat Walker's.

-Mrs. Jackie Stevens, Seal Beach

I tried "crash diets," lost a few pounds then put them right back on. For the most part, like most mothers, I was busy rearing a family and avoided looking in a full-view mirror.

Within the past few months I decided I was going to have my figure back. Friends told me about the Pat Walker Salon and I read the ads in the papers. The Pat Walker way is such a pleasant

way to lose those pounds and improve your

health in general -Mrs. Vera Clevenger, Norwalk

For the past 4 years I avoided getting on the scales completely. My emotional insecurity increased and I had no interest in nice clothes or any kind of social life.

Now a short time later I wear a size 10 instead of a size 16. I have 10 times the energy compared to when I was dragging around all those extra pounds. My husband and 4 children are so very proud of me. It is a sure thing for anyone to reduce with Pat Walker's program.

-Mrs. John Holmes, Jr., Woodland Hills.

I had become a 200 pound size 20. I was sluggish and suffered from being overweight. I decided this being overweight had

gone far enough and started the Pat Walker Reducing Program. I am now down to a size 14 and still

going down. My husband is delighted with my progress and the way I look. It sure is a wonderful feeling to have a nice figure and be able to wear figure flat-

tering clothes again.

-Mrs. Rosemary Barto, Lakewood

I was disgusted with the way I looked and the way I felt. Now that I have reduced from a size 16 to a perfect size 10 my two children see me as a new mother, full of pep and ready to go.

I have a different outlook on everything and now actually look forward to a new day and social activities. I've really had wonderful results with

Pat Walker's reducing program. -Mrs. Gladys Compton, Pasadena

Over the years Mrs. Dorothy Foust had tried all kinds of diet, diet pills, and exercises only to lose 10 or 15 pounds and gain it right back. For months her husband

had encouraged her to come to us to see if we could help her, but she found many excuses for not coming. However, when the scales went to 205 pounds, she decided she was desperate and would have to call us, which she did.

Her husband tells her she is a "a new you" and her children tease her and call her "skinny." She says it is music to her ears. -Mrs. Dorotby Foust, Reseda

I have a TV programme in Sydney and write the "Dear Del" column in the newspapers. Recently I started to be conscious of my hips and the tops of my legs.

Everything I eat seems to go to the same place, which — well, you know.

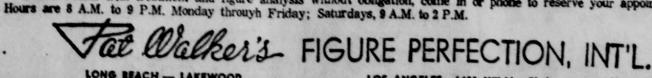

Reducing at Pat Walker's is done without guesswork and in the salon's luxurious osphere. You can be lazy, pampered and

and from the analysis we will tell you where you are going to lose, how long it will take and based upon \$2.00 per treatment we will tell you exactly how many treatments you need and the exact cost of your figure correction. its defense all year, which has the Cavaliers in a tie for sixth place in the San Antonio League.

But the Cavaliers put it all together last week and defeated Garey, also in sixth place, 77-64. The win was the third for Montclair against six losses.

The Cavaliers were threatened with another loss when Garey opened up with a full-court press, but the outside shooting of Gary Turner kept them in the contest. Turner ended the night with 20 points to lead three other Cavaliers in double figures.

The second quarter opened with Montclair switching to Garey's tactics and forced the Vikings into 29 turnovers. Montclair finished on top at the half 34-32 and were never headed from that point.

Garey's high-scoring Kevin Thomas ripped the nets for 23 points, and Dave Titus collected 11 points, but they were the only two vikings to reach double

Montclair placed Turner, Phil Merenda (17), Gregg Campbell (15), and Tom Smith (12) into the double-figure category.

The Cavaliers stretched their winning streak to two games by romping over the shorter Bearcats 74-61.

The key to the win was the hot outside shooting of their two guards Phil Merenda and Tom Smith, Smith connected on seven shots from 25-30 feet, while Merenda swished five field goals from the same range.

When the Bearcats would compensate and come out to stop them, the duo would make perfect passes under the basket to Campbell and Turner for easy

Bonita closed the gap to five points 45-40, but the deadly pair sank three consecutive aerials to push the advantage to 11 points.

With five minutes left to play, Bonita once again closed the gap this time to three points 60-57. But once again the Cavaliers were not to be denied as they connected on four straight field goals to gain another eleven-point advantage with less than three minutes to play.

Turner won scoring laurels for his team with 19 points. while Smith added 16 points. Phil Williams and Merenda aided the cause with 15 and 13 points respectively.

Montclair will find things a little tougher this Friday night in a trip to Pomona. The F.ed Devils are presently in second

A HARD FOUGHT GAME TO THE END -- It was a hard fought victory for the Montclair Cavaliers when they took on Bonita Bearcats last week, with the Cavaliers winning, 74-61. Shot above was just one of the many exciting highlights of the game.

#### ALHS beats Gladstone

Alta Loma remained all alone at the bottom of the Hacienda League by losing last week to

powerful Workman High, 96-62. The loss was the eighth for the Braves against two wins. Kent Dugan and Bill Larson were top scorers for the Braves with 15 points each.

Alta Loma shook off some of the cobwebs by defeating Gladstone 67-46.

Alta Loma has a severe heighth disadvantage which has caused the Braves problems all season long. But they played excellent defense against the Gladiators to turn the tables.

# Well-balanced attack pays off for UHS

Upland High School has boasted of a balanced attack all season long, and it has payed off hand-somely in Upland's 77-68 win over second-place Pomona last week.

The win pulled the Highlanders to within one game of the Red Devils and four games behind league-leading Chino, who has yet to lose a game.

Chino is rated seventh in the latest CIF AAA polls.

The Scots are a hustling team hearalded for their full-court press, which they worked to perfection in the Red Devil conquest. The outcome was 18 thefts, far more than Pomona is used to giving up.

The Highlanders also rebounded even with Pomona, which is quite a feat considering the fact that they gave up over three inches per man.

Outstanding player of the game was stalwart Frank Harris, Har-ris collected 25 points, 11 rebounds and four steals, and showed excellent leadership and

Pomona's big threat in Mike Muir (6-9) and Mike Lambert (6-7) were held to 9 and 18 points respectively. Both were averaging well over 20 points per game before the contest. Upland started off fast as usual,

taking an early 14-6 lead. But strong outside shooting by Larry Eckle pulled the Red Devils to

within two, 19-17, at the end of the initial quarter.
But the Highlander press, combined with the shooting of John Bowser, Louie Engle and Leonard McDonald, proved to be too much for Pomona to handle.

The Highlanders avenged the first-round loss to Claremont by defeating the Wolfpack last week 70-62 with a late scoring

The Highlanders started off fast, taking a 16-8 first quarter lead, but they let the 'Pack catch

up late in the second quarter. The lead changed hands eight times during the game until mid-way through the final stanza, when the Highlanders splurged for a 12-point lead 67-55 to ice the contest.

The Highlanders got stalwart performances from several of their players. Frank Harris collected 21 points, while Louie Engle played well at both ends

of the court and netted 16.
Leonard McDonald played an outstanding game on defense and netted 14 points in the Highlander

LONG HAIR

How long can a public high school student's hair be? This can depend upon what school he goes to and in what federal court district the school is. In any event, rules about long hair length must be precise and reasonable. They

cannot be mere whim. One California federal court upheld a school district rule to keep hair from touching the boys' shoulders. But another court said that a vague rule on hair length was invalid. It gave the teacher too much discre-

Recently federal courts decided several "hair cases."

An Indian federal district court upheld a school's rule that boys' hair should not touch their collars, ears, and eyes. For it to do so would disrupt school work.

But a Massachusetts court refused to uphold student's suspension since, as it said, the boys' hair only disrupted his principal.

According to the Indiana court, the boys' long hair disrupted school work because it took on a feminine style and distracted the students. Not the hair's length but the school's disruption justified the ruling. The court added that "the long

hair case of today may be a shaven head case of tomorrow."

But if the school has no written rule about styles or dress, than a school official's mere personal likes or dislikes would not hold up in court. Besides, the student has a right to a fair warning, which a written and pub-

lished rule would give. Another school ruled that boys must have "neat conventional male haircuts." When a suspended student challenged the rule, the court found it invalid; the words "neat and conventional" were too vague to be a guide for conduct.

# 'Red Cloud' opera to open in Ontario

The American Indian folk opera "Red Cloud" will be staged in Ontario at the end of February under the baton of James K. Guthrie, the distinguished California symphonic conductor.

Announcement of plans for showcase perform-ances Feb. 27, 28 and March 1, at the Chaffey Auditorium, was made by S. Earle Blakeslee, the composer, on behalf of the Red Cloud Opera Association, Inc., a non-profit group working for the ad-vancement of the Indian artist and of Indian cul-

dian nations, especially the Sioux, around whose legends the opera is built, and of the U S Bureau of Indian Affairs, are being invited to the performances to observe how future presentations can be used to assist the professional ambitions of promising Indian talent.

The opera was com-posed by Mr. Blakeslee while he was still engaged in teaching music to fulfill a pledge he made to himself when, as a student in Indian country, he saw at first hand the condition to which the white man's conquest had reduced the once proud red

Blakeslee, now 86 and etired, is a former professor of music at Pomona College and served for 36 years as music director of Chaffey College. He gained national attention as a choral composer and conductor and remains active enough to personally rehearse the opera chorus.

Among enthusiastic boosters for the opera are Will Rogers Jr., former congressman and son of the late comedian, who has Cherokee blood in him, and Dr. Jan Popper, organizer of the Stanford University and UCLA Opera Workshops.

Both appeared on be-half of the opera at a Los Angeles County Fair Grounds preview in 1966.

# **Economy in upswing?**

The new year apparently has brought some recovery from Southern California's previously fading economy, Security Pacific National Bank reports.

Shopping provided most of the muscle as business activity during January pulled within range of a record level reached last October, Increased bank debits also contributed to January's performance, estimated at 206.4 (1957-59 equals 100.0) on the business index compiled by the Economic Research Department at Se-curity Pacific.

During the final quarter of 1969, local activity peaked at 207.5 in October, then fell to 205,1 in November and 200.9 in December. January's estimated reading of 206.4 is up 2,3 per cent from December and up 8.7 per cent from a year ago, when the index stood at 189.8.

Incomplete January

statistics adjusted for seasonal influences, indicate monthly advances of 19.4 per cent in department store sales and of 2.4 per cent in total spending -- as reflected by bank debits, Monthly declines also have been indicated in construction (-4.6 per cent) and real estate sales (-1.7 per cent).

Latest seasonally adjusted labor statistics are down slightly from previous-month levels, yet they remain significantly higher than a year ago (for the eight southland counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino, San Di-ego, Santa Barbara and Ventura).

Eight - county employ-ment of 4,727,100 civili-ans during December was 3,000 below a record 4,-730,100 in November but 140,800 ahead of 4,586,-300 in December, 1968. The ratio of unemployed to the total civilian labor force continued to decline during December — to 4.2 per cent from 4.3 per cent in November and from 4.4 per cent in Sep-tember -- but remained higher than the 3.9 rate of a year earlier.

Rubinstein has more than 50 recordings in the current RCA Victor list, covering much of the most important music in piano repertoire. He received a gold record for selling

over a million albums, He has appeared several times in movies and on television. His film credits include "I've Al-ways Loved You," RKO's "Night Song," and MGM's "Song of Love," which is based on the life of Robert Schumann.

Consistently acclaimed for his brilliant keyboard technique, Rubinstein has also demonstrated a vast repertoire on the concert stage. In New York in 1961 he played 10 Carn-egie Hall concerts with different programs

within 40 days. Some \$7.50 tickets for the Claremont event are still available from the Bridges Auditorium box office and all ticket agencies.

# Preventive care

Through an intensive preventive maintenance program at General Telephone Co. vehicles operate at their optimum, auto accidents due to mechanical failure have been virtually eliminated, and time and money are better conserved.

At General of California, with one of the largest fleet operations in the state, a staff of 240 employees maintain more than 6.366 vehicles.

Many students

"During the past 10 years, our fleet has grown by 185 per cent, said Keith Hammer, fleet ad-ministrator. To coin-cide with this growth, we have constantly updated the maintenance program to take advantage of new innovations which keeps our fleet operating at peak efficiency."

The preventive maintenance, or PM, program is based on a simple prin-ciple: when vehicles are kept at their mechanical best, less problems and

expenses occur. For example, vehicles are regularly brought into company garages every four months. During this service inspection, the oil is changed, chassis lubri-cated, engine is electronically tested, tires, brakes, steering, lights and other mechanical devices checked.

Judging is based on scholastic ability, leadership and service to Junfor Achievement activities, and business acumen.

Other judges are William H. Burgess, industrialist; Clayton C. Cole, executive director - in-

dustrial relations, North American Rockwell Corporation; James E. Gordon, vice president and general manager, Los Angeles Central Area, Pacific Telephone & Telegraph Co.; W. A. Pulver, vice president-manufacturing, Lockheed Aircraft Corporation,

Presentations to the winners will be made at JA's Future Unlimited Banquet at the Sports Arena on May 21.

There are 4,800 high school students operating 246 miniature companies in the Southland's JA pro-

gram, an activity sponsored by business and industry to acquaint teenagers with America's free enterprise system.
